A dispatch, to the was department

which Aguianido proposes to send to Manila.

A dispatch to the war department Monday from Gen. Otis annouaced that Aguilasido had sent a messenger to him expressing a wish to send the commission "to arrange terms of peace." The administration officials express the opinion that this commission will aubmit to President Schurman and his associates the answer of Aguinaldo the propositions made by the American commission to Col. Arguelles. Aguinaldo's emissary, regarding the character of government which would be given to the Filipinos and which Arguelles declared was satisfactory.

It is probably apparent to the Filipinos and to the Filipinos and to the Filipinos and to the Filipinos and the State of t

guelles declared was satisfactory. It is probably apparent to the Filipiaos that there is aothing to be grained by conducting negotiations for the purpose of obtaining a temporary cessation of hostillities. Gea. Oits will act grant an armistice, as he has shown that he does not propose to stop fighting, ao matter how masy peace emissries Aguinaido may send to Manifa, unless they agree to unconditional surreader.

to Masiia, unless they agree to unconditional surreader.

In his dispatch Gen. Otis shows, despite the fact that Aguilaido states his purpose to send a commission to arrange peace, he is making preparations to coatinue military operations. It is evideate to the officials from this dispatch that Gen. Otis has found it accessary to change his plans. He has been making preparations to the tack Baccolor, where 9,000 insurgents are believed to be eacamped, and it is presumed that the movements reported Monday still have that point as the objective. Gea. Lawton is making excellent progress in his aorthward march, and the dispatch of Maj. Kobbe with 1,300 men up the life timed, supported by tunbeats and cances is for the purpose of eaching Gen. Lawton to cross the life of the purpose of the purpos

Grade without molestation by the enemy.

The plan apparently contemplates the rapid swinging of Lawton to the west. Gen. MacArthur to remain at San Fernando, between the insurgents at Bacolor and those at Mexico, and Kobbe is to take a station so as to prevail the molestand of the same of the product of the product of the product of the product communication with Mania.
